PERSONAL STATEMENT

Hello! I am Amanda Jo. I'm a 21 year old programmer born to design, create and engineer. Whether it was beating my dad at Mario Kart on the Super Nintendo, running the football into the end zone during recess, or defeating my fellow nerds at the Mathletes competition, I always knew I could keep up with the boys. Since a young age, I have been the girl to break the mold. Now majoring in computer science at BYU, I'm ready to show everyone that 'girls rule and boys drool'.

MY SPECIALITIES

EDUCATION

COMPUTER SCIENCE BS

JUNE 2012 - JANUARY 2014
University of Utah
3.91 GPA
